Enjoy your skis with the peace of mind knowing you're covered under our 2-year 100% satisfaction guarantee.

Custom Build Gift Certificate with MITO inside: \$1650

Exclusive MITO/Folsom Offer: \$950

Happy to share this one page sheet about the MITOxFolsom Offer. Basically, we are working with Folsom to offer 25 pairs of skis with MITO inside a special offer price of \$950 (\$1450 regularly). This includes a 1 hour consult with Mike McCabe the CEO of Folsom to discuss and design your optimum ski build for the conditions you ski. Together you will finalize your custom design and it will be built with the MITO construction. We are excited to get more MITO skis on the slopes. If you or someone you know is interested, all they need to do is contact sales@mitomaterials.com with their information. We will collect the \$950 and provide you the certificate for your custom build and connect you with Folsom.

[Click Here](#) to see real Ski pro's review the MITO skis compared to skis without MITO added. At Blister 2025, skiers took 2 pairs of the same type of ski on the slopes and the only variable change was the addition of MITO. Their reviews are a powerful testament to the technical and market validation of MITO.

You can also listen to our podcast interview with Blister Founder Jonathan here where we discuss what Graphene can do for ski construction.
